

*Not more than you need...
just more than you expect.*

The Nordson Protection Package 23-point service includes these items and more:

- Visually inspect melter, hoses, dispensing guns and solenoids for damage, missing parts, cleanliness, proper support and installation, and hydraulic-connection and electrical-connection integrity.
- Replace Nordson melter tank filter and gun filter.
- Drain and clean inside of melter tank.
- Manually operate each gun, inspect adhesive for foreign material after dispensing, and observe each nozzle for accurate firing.
- Check each temperature zone and reset, if necessary.
- Check operation of setback temperature control, temperature displays, and over/under temperature indicators.
- Check air pressure to guns and reset, if necessary.
- Check melter pump for proper operation.
- Observe equipment in operation for correct adhesive pattern, volume and pattern registration.
- Submit list of corrective actions, required spare parts and labor estimates, if necessary.
- Submit list of recommended spare parts and price quotation.
- Provide documentation and maintenance performed.
- Conduct annual audit of on-hand spare parts inventory and recommend stocking levels specific to system and production environment.

Nordson Protection Package™

Exceptional support package keeps you productive.

Nordson® adhesive dispensing systems come with the strongest service support in the industry. We help protect your investment with exceptional after-sale programs to keep your equipment in peak operating condition.

A Nordson Protection Package is one of the easiest ways to assure consistent operation, meet your production goals and avoid unexpected downtime. Factory-trained Nordson technical representatives are professionally qualified to maintain top system performance. Your equipment investment receives priority service that meets original factory specifications. Most importantly, you receive only genuine Nordson replacement parts, preserving your system's reliability, efficient operation and warranty.

The Nordson Protection Package is available for the following Nordson equipment models:

- Series 2300 melters and systems.
- Series 3000, 3100, 3400, 3500 and 3700 Multiscan® and Vista® melters and systems.
- ProBlue® 4, 7, and 10 liter melters and systems.
- DuraBlue® 4, 10 and 16 liter melters and systems.
- Other Nordson melters and systems may qualify. Ask your Nordson representative.

Invest a little...save a lot.

Invest

Single melter/system (one visit) _____

Multiple melters/systems (one visit) _____

Save

New filters for melters/guns No charge (up to \$120 value)

Assign maintenance staff to other duties 2 to 3 hours

Melters/systems optimized . . . Increases productivity

Reduces downtime potential . . Increases profitability
